

NEW AT CLINIQUE SANTÉ DIX30

INFILTRATION SERVICES

January 2021.

We are very proud to welcome **Dr MARIE-ÈVE ROY**, BSc, M.D., CCMF (MSE) who specialized in Sport Medicine at the University of Ottawa. She is one of the team physicians of the *Carabins* athletes of the University of Montreal. She will now offer infiltration services covered by Medicare.

Cortisone infiltrations are covered by Medicare. As for viscosupplementation such as Synvisc, Cingal or Durolan which are not covered by Medicare, they will need to be provided by the patient. Please note that those products are usually reimbursed by the majority of private health programs.

When typical treatments, including physiotherapy, are unsuccessful and infiltration is considered, please provide bilateral weight-bearing XRAYs of the joint to infiltrate.

Please send your consultation request to **Dr Marie-Eve Roy**, stating the reason for consultation, a short summary of the case and previous treatments attempts to:

servicesspecialises@santedix30.com
Tél : (450) 443-5055 fax: (450) 672-4578

IMPORTANT :

Request for infiltrations to spine and sacroiliac should be sent to a MSK clinic or MSK radiology clinic.
